Key Messages:

- ✓ Keep stove burners and ovens clean, adjust the timer setting on the toaster and use the range hood fan.
- ✓ Install smoke alarms with a hush button that will temporarily silence the alarm. The smoke alarm will re-set itself after several minutes.
- ✓ Move smoke alarms located close to kitchens or bathrooms to a different location.
- ✓ Try replacing ionization smoke alarms located near kitchens with photoelectric smoke alarms.
- ✓ Replace smoke alarms that are more than ten years old with new ones.
- ✓ Visit www.makeitstop.ca for more information.
