

C\$500 Stipends Available to Support Your Home Fire Sprinkler Outreach

APPLY TODAY!

**DEADLINE:
MARCH 31**

The Home Fire Sprinkler Coalition (HFSC) will award stipends to 20 qualifying Canadian fire departments that demonstrate a plan to conduct community outreach during 2021. Only BUILT FOR LIFE Fire Departments may apply for the stipend. If you are not a BUILT FOR LIFE Fire Department, **SIGN UP TODAY!** It's free to join.

Apply for the stipend by March 31, 2021

Here are some stipend ideas:

- Build or refurbish a Fire and Sprinkler Side-By-Side Burn Demonstration. This may include refurbishing existing displays or trailer demonstrations.
- Build a Home Fire Sprinkler 13D display. AGF Manufacturing is teaming with others in the industry to donate the riser pack for these displays. HFSC's Display Guide provides all the information you need to build it. Use your smartphone to produce a website and social media video showing all the components and explain how a home fire sprinkler works.
- Produce an educational banner or canopy tent with home fire sprinkler graphics and your logo and create a plan for how these will be used to educate about home fire sprinklers.
- Purchase a monitor to play HFSC's educational videos. Place the monitor where members of your community can safely view it.
- Conduct a virtual Home Fire Sprinkler contest and offer fun prizes.
- Boost Facebook post.
